

Hello,

We are students from Olin College of Engineering. We are taking an interface design course and chose to design for college catering services.

With your permission we will be taking notes, pictures, and videos. Please be advised that we may ask you to write or sketch along with us. If you are okay with this, we would like to keep record of our work and conversations. This documentation will be used to aid us in our design process later and be used strictly for internal purposes. Throughout the process, we will use a pseudonym to keep your identity confidential. We will never share your personal information or thoughts with anyone in connection with your name.

We can't provide any financial compensation to you, but we hope that the process will be interesting for you. If you have any questions about our collection methods, processes, or who we are, feel free to contact our professor at [amon.millner@olin.edu](mailto:amon.millner@olin.edu).

Thank you!

Team Zion

Deniz, Jason, Hannah TS, and Hannah W.
