Things we noticed from User visits.

- The fill in boxes do not line up with the column header- current amount

- Accordion paper prototype is difficult for computer to move- need to make more simple.

- The add button on the bottom corner isn't noticeable as a menu button.

- The triple dots in the search bar is misleading as it doesn't serve any functionality.

- Each column of the table is supposed to be sortable, but there is no indication for that.

- There is no indication that the date on top of the page is clickable to switch to other dates.

- The option of reordering same ingredient is not obvious.
